

## Valco Data Extract Solution

### WHY YOU SHOULD REPLACE VALCO WITH PAPERSTORE

Are you still using Valco for your document scanning? If so, here's a solution to convert Valco and offer a more efficient alternative. Also, be aware that the Valco product is being sunset. If you are using Meditech scanning and archiving, PaperStore offers scanning solutions for the business side of the hospital, such as, Material Management, Human Resources, Accounts Payable and Pharmacy.

**Would you be interested in the PaperStore solution?**

### FREQUENTLY ASKED QUESTIONS

Can you take the existing Valco data out of Meditech and put in your solution?

**RESPONSE:** Yes, we have exported other hospitals' data out of Meditech and imported it into our scanning solution.

Can you interface with Clinical Review?

**RESPONSE:** Yes, we can interface with Clinical Review.

Can you scan pharmacy orders and interface with the pharmacy screens in Meditech?

**RESPONSE:** Yes, we can and if you are printing bar codes on the orders, we can read the bar code to index and automate the indexing of several other fields.

Can you interface to the Material Management screens for purchase orders?

**RESPONSE:** Yes, we can extract data from the Meditech screen to automate the indexing of scanned images.

### TESTIMONIAL

Chalk up another win for PaperStore "We were in a pinch, needing a solution yesterday that would let our nurses scan drug orders into a system and not add more than a couple steps to their job to get the orders in front of our remote pharmacists. PaperStore was that solution. It offered immediate resolution to what could have been a train wreck otherwise."

## PaperStore

### PAPERSTORE CAPTURES REPORTS AND INDEXES THEM

PaperStore also has the ability to automate the capturing of Meditech Reports and index them in a lights out program. This eliminates the printing of reports saving time and print cost.
