

## PC AlertIT

Physicians - Users - Predefined Groups - Departments

Overcome significant operational challenges by getting the right information, to the right people, at the right time, with PC AlertIT. Use PC AlertIT to proactively communicate important information to staff for quality patient care. Optimizing the communication with timely, relevant information within a healthcare organization supports enhanced quality of care, physicians, and enables real-time decision making. AlertIT runs as a PC task tray companion to help keep staff up to date. AlertIT allows you to receive clinical alerts that require real-time intervention to be compliant with standards of care and patient safety.

### EXAMPLES OF ALERTS:

#### ALERT PHYSICIANS/USERS ON:

- Incomplete Records
- Unsigned Reports
